```javascript
let score = localStorage.getItem("hydroScore") || 0;
score = parseInt(score);
document.getElementById("score").textContent = score;

function addPoints(points) {
  score += points;
  localStorage.setItem("hydroScore", score);
  document.getElementById("score").textContent = score;
}

function resetScore() {
  score = 0;
  localStorage.setItem("hydroScore", score);
  document.getElementById("score").textContent = score;
}
```
